*Smart School Smart Management*

**HRSS**  
Ready for Tomorrow

**H.R. SOFTWARE SOLUTIONS PVT. LTD.**

# SchoolApp onDemand®

We take this opportunity to introduce ourselves as **HR Software solutions (an ISO 9000:2008)** a leading player in School Management Software. We have been serving clients across India and overseas from more than 10 years having presence with 5 offices in India and 2 offices in Middle East. We have been interacting with Senior Management of reputed schools across India to understand their challenges. Most of the Senior Management have raised following concerns about proper day to day management even after installing best of the school management software available in the market. Our School ERP software is flexible in nature & it can easily manage all the aspects & functionalities of school organization. It provides an integrated platform for all the students, teachers, administration, parents & other school staff members. Our educational ERP software is a web based application system & user can easily access from anywhere by login user ID & password. With the help of our school erp software, school administration can keep a close eye on the staff 's work function & brings transparency in the system. It has integrated school ERP software and it can be customized according to the user's requirement.

Our "SchoolApp OnDemand- An online school ERP" **has been designed after 5 years of intensive R&D** to address the current and future needs of a progressive school including the above concerns:

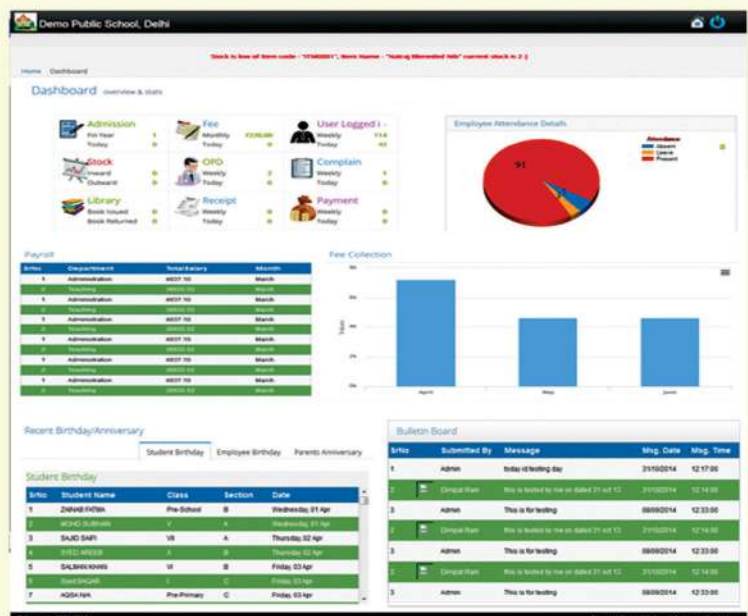

We have been interacting with Senior Management of reputed schools across India to understand their challenges. **Most of the Senior Management have raised following concerns** about proper day to day management even after installing best of the school management software available in the market.

- ❖ In case of absenteeism, how parents can know homework given in school?
- ❖ How to give regular feedback of student to parents and similarly parent's feedback to school?
- ❖ Is it possible for parents to pay fee online and school can track the same?
- ❖ Mass communication (Circular/Activity/Emergency) to parents with a single click via mail & SMS?
- ❖ How to achieve automatic updation of attendance of student & school Staff?
- ❖ Is it possible - separate access login for Parents, Students, Teacher, Staff & Management?
- ❖ Can we manage school time table online?

## "SchoolApp OnDemand"™ Covers Up Below Modules:

**Registration Management (Pre-Admission) :** Enquiry, Prospectus, Admission Criteria etc.

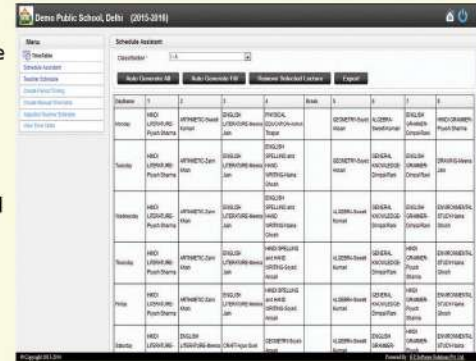

**Admission Management :** Student Personal information, Parents information, Parents qualification, Siblings, Students documents, concession etc.

**Fee Management :** (Fee Deposits, Fee Receipts, Fee Defaulter, Fee Concession, Pre Balance, Due Amount, Fee Reports. Etc)

**Student Management :** (Student Info, Fee Info, Student Documents. Etc.)

**Time Table Management :**

Only on one-time input of the basic information about the provision of subjects to the teacher, teacher to the classes and number of lessons for each subject to each class & each section, the system intelligently generates the most probable combination of the time table and allocation of the time table for the session. With computerized assistance, the time table Management system can be modified by the user to suit more specifically to the school as well as the staff while the computer will keep on prompting about the clashes and suggest possible resolution. The whole painful task of time table preparation and management will be turned into a playful rise.

**Class Management :** Class Transfer & School Leaving Details Modules

**Attendance Management :** This module should help us to take student attendances accordingly and also generate necessary report for further performance analyses. Necessary will be sent to the parents and management.

**Leave Management :** Record the dates on which the students went on leave.

**Circular Management :**

This allows you to share the updated circulars regarding any urgent meeting, school event, or any other activity. Teachers and school staff can get the regular updates of the circulars immediately and get notified of all the important information.

**Photo Galleries Management :** It allows the schools to create albums for events happening in the school and share images with parents, students and the school staff

**Calendar Management :** Manage school academic calendar of school. Displays school events, exams, events in school calendar.

**MIS Reports :** (Fee Receipt, Fee defaulter, Daily/Weekly/Monthly Collections, Fee Head wise, Class wise, Section Wise, Fee Mode Type, Transport Fee, Date wise, Student wise etc.)

**SMS Integration Facility :** Using this module we should be able to send SMS to the parents with important information like holidays, attendance, home work, student report etc.

**Database Backup & Restore:** This module should help us to take data back-up as a disaster plan.

## SchoolApp (Mobile Application):

HR.Software Solutions Pvt.Ltd provides schools with an easy way to tell parents/careers everything they need to know, and it provides parents with the most convenient way to receive school notifications.

No more lost paper in student school bags! School newsletters, school notices and alerts are communicated directly to the parent Smartphone through the school Mobile App.

We developed the SchoolApp that communicates directly with Android devices. Through the educational apps, the Parents/students can get access to any information from anywhere.

It's your school App! So without wasting time, let us discuss a few of the benefits of the educational App. SchoolApp is published and very common nowadays, and is branded for your School also . Your parent community can find your school app in the Play Store by searching its name, and it can even be customized in the future for your school as required.

It's your school App! So without wasting time, let us discuss a few of the benefits of the educational App. SchoolApp is published and very common nowadays, and is branded for your School also . Your parent community can find your school app in the Play Store by searching its name, and it can even be customized in the future for your school as required.

### **SchoolApp Overview :-**

Parents can regularly be in touch with both the school and the teachers with the help of app. Parents can ask the concerned authorities about their ward's performance, activities, achievements, Fee, Attendance, Homework, and Assignment etc. Alternatively, parents can also get notified by the school and parents regarding their ward's scholastic activities as well as performance.

### **Student Profile :-**

Student information is updated here, his full name, class, and section and siblings details. The option of User-define fields make this module very flexible through which schools may add data fields like Aadhar Card number, hobbies, etc, as per changing data requirements. Further, these fields can be searched, exported and used in creating user-defined documents.

### **Fee Management :-**

Fee Management for school can be easily done from a SchoolApp. This manages all the fee related features like fee payment, and also to provide fee reminder to parents. This increases productivity in work and reduces delay in management. Parents can also download fee receipts, pay online fees from the SchoolApp. So there is record present with student, parent and school for minimal mistake.

### **Push Notification Alerts (SMS) :-**

Any content added to app can be pushed as FREE instant push notification messages which can be immediate or scheduled for later. Use it for news, events, newsletter posts, Circular, last minute cancellations, etc. Plus you can categories the push alert to target years, classes, subject's sports teams, drama classes, etc. A great replacement to school SMS.

### **Integration of social media and online payment systems :-**

This is an optional feature for schools that is convenient and efficient, promoting the system to parents.

### **Homework & Assignments :-**

Assign daily homework and share study resources - pictures, documents.

Subject wise grid based entry system with sections for each class section and rows for all defined subjects.

### **Secure and easy to access :-**

Active School Apps are native apps that are installed on parents' phones. As well as being a format parents feel comfortable using, native apps provide greater security and quicker access to information.

### **Circulars Update :-**

Circulars and notices are sent to each parent and enable them to archive the same with an option of attachment. SchoolApp flexible to get time update of school circular information.

### **News, Notifications & Alerts :-**

Send notifications to parents for every key activity and occasion.

### **Gallery Section :-**

Catch the glimpses of school's photos. School Gallery is one place to recall all the memorable moment of various events held in the organization.

### **Communication Panel:-**

In spite of the fact that school management software is about administration, yet it can make it easy to communicate with the parents, guardians, students.

### **School Calendar :-**

Tightly coupled with student attendance, mark holidays in either place and see it reflect across. Define event categories to your heart's content and select color of the category to be shown in app and all reports. Define calendar events and associate them with various categories and classes. Event could span across multiple holidays.

### **Apply to Leave :-**

No more wasting time in writing Leave applications – Apply for leave directly from your SchoolApp. This is all possible with the help of SchoolApp which is a part of school management software.

### **Birthday Reminder :-**

SchoolApp helps you to see birthday of your child's classmate on single click.

### **Achievement :-**

It helps you to see your child's Achievements. Talking about the achievements bit, the module facilitates configuration of achievements levels, manages individual student's achievements and the notification of achievements with image gets auto exhibited on SchoolApp.

## WHY THERE IS NEED OF SCHOOLAPP ONDEMAND?

1. Loss of time and resources due to data duplicity.
2. Possibility of loss of data & information is high.
3. Access to key and accurate information is time consuming and difficult.
